Mobile Broadband at home or out and about

Mobile Broadband without the need for a landline: Surf at home or out and about.

It's simple. Really.

You plug the dongle (USB Modem) into your USB port in your PC or laptop, and you can be online in a matter of minutes. Mobile Broadband works at home or on the move. And with 90% population coverage (and more every month), 3 are bound to have you covered. You can use Mobile Broadband for all the things you go online for. Check your emails, find out the footy scores, even see the latest funny clip on YouTube... all without having to pay for a fixed line.
